

INTERNEST

OUR SOLUTION

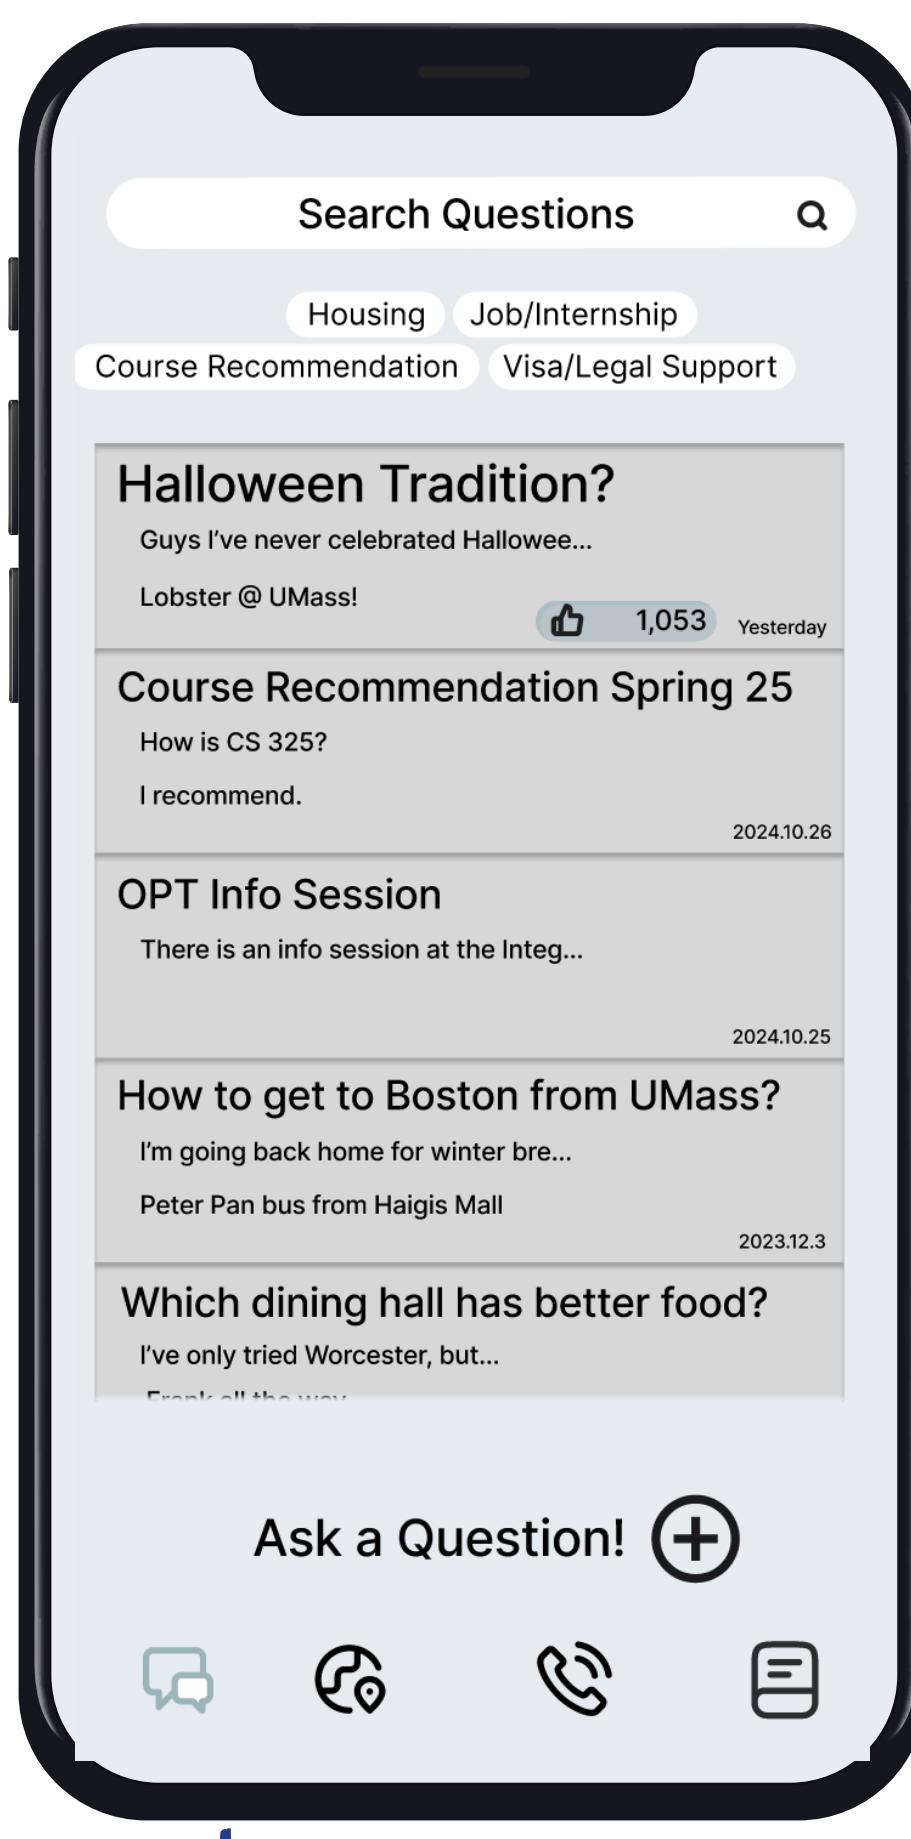

PROBLEM

International students often struggle to find accurate, personalized and culturally relevant information about housing, jobs, visas and campus life. Existing university resources are often too general, leaving students to rely on scattered or unreliable platforms for support.

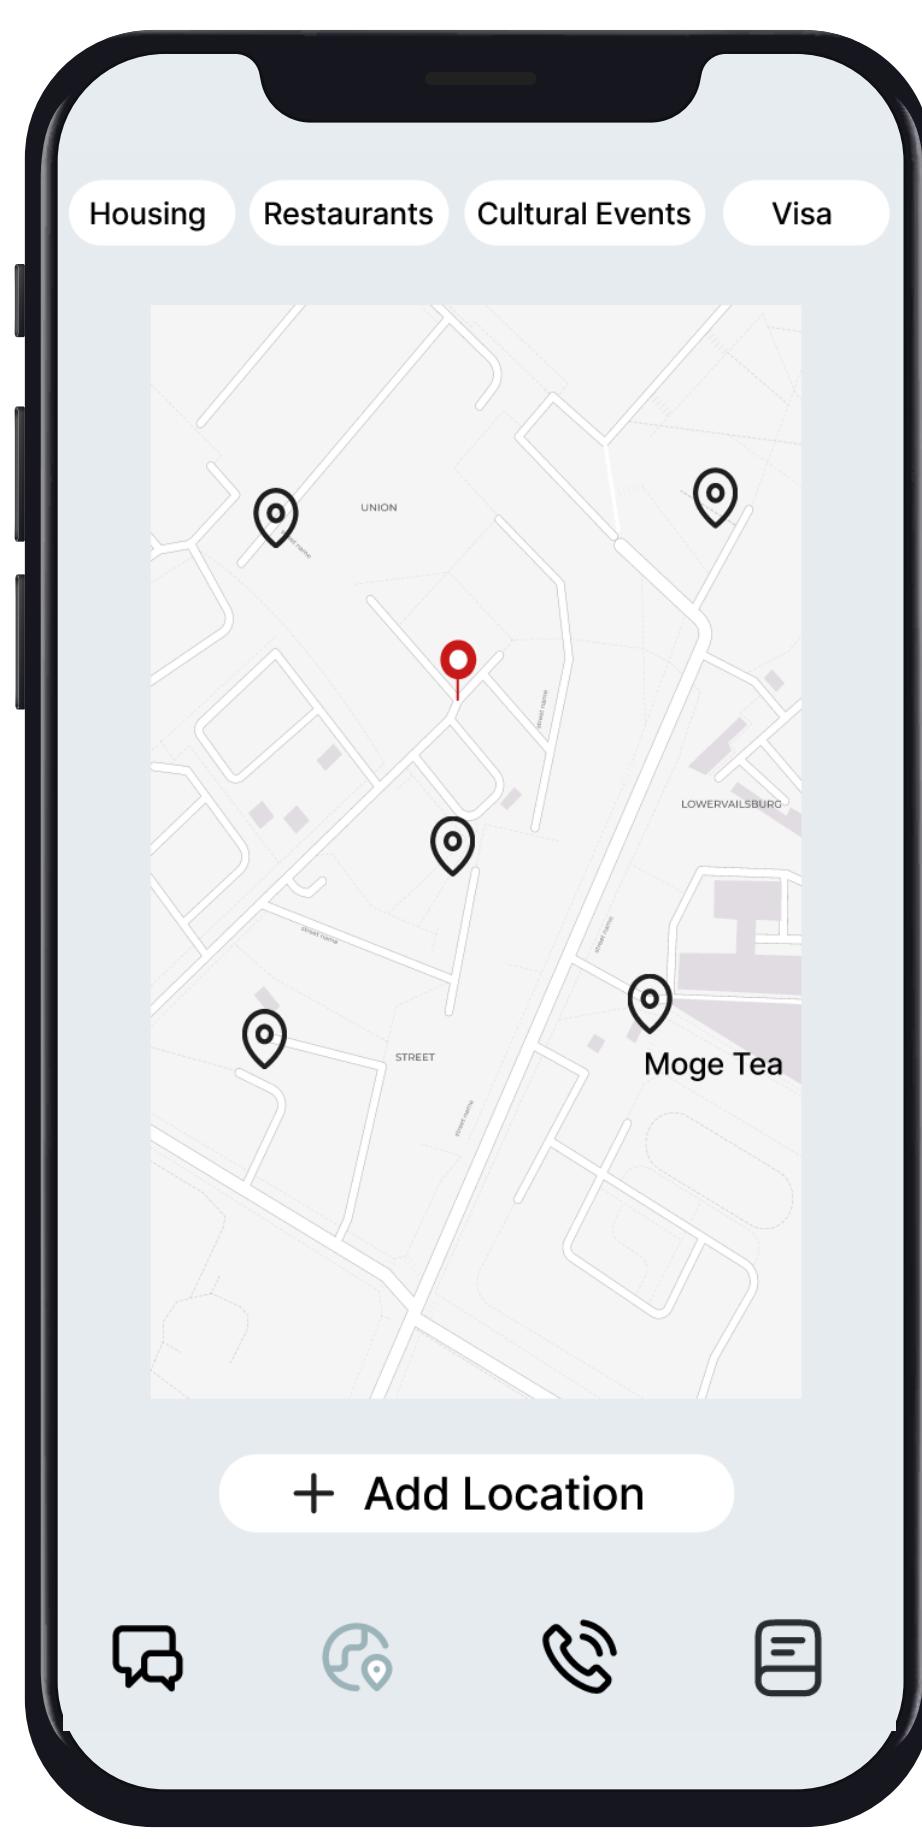

We introduce InterNest -- an app that provides a community-driven platform for international students to build connections and share experiences. InterNest ensures students receive accurate, trustworthy and personalized support.

KEY FUNCTIONALITY

User Q&A

Interactive Map

Connect & Chat
with students
from the same region
using specific
language

Mark & Share
important places &
Intl' restaurants
in the 5C Area

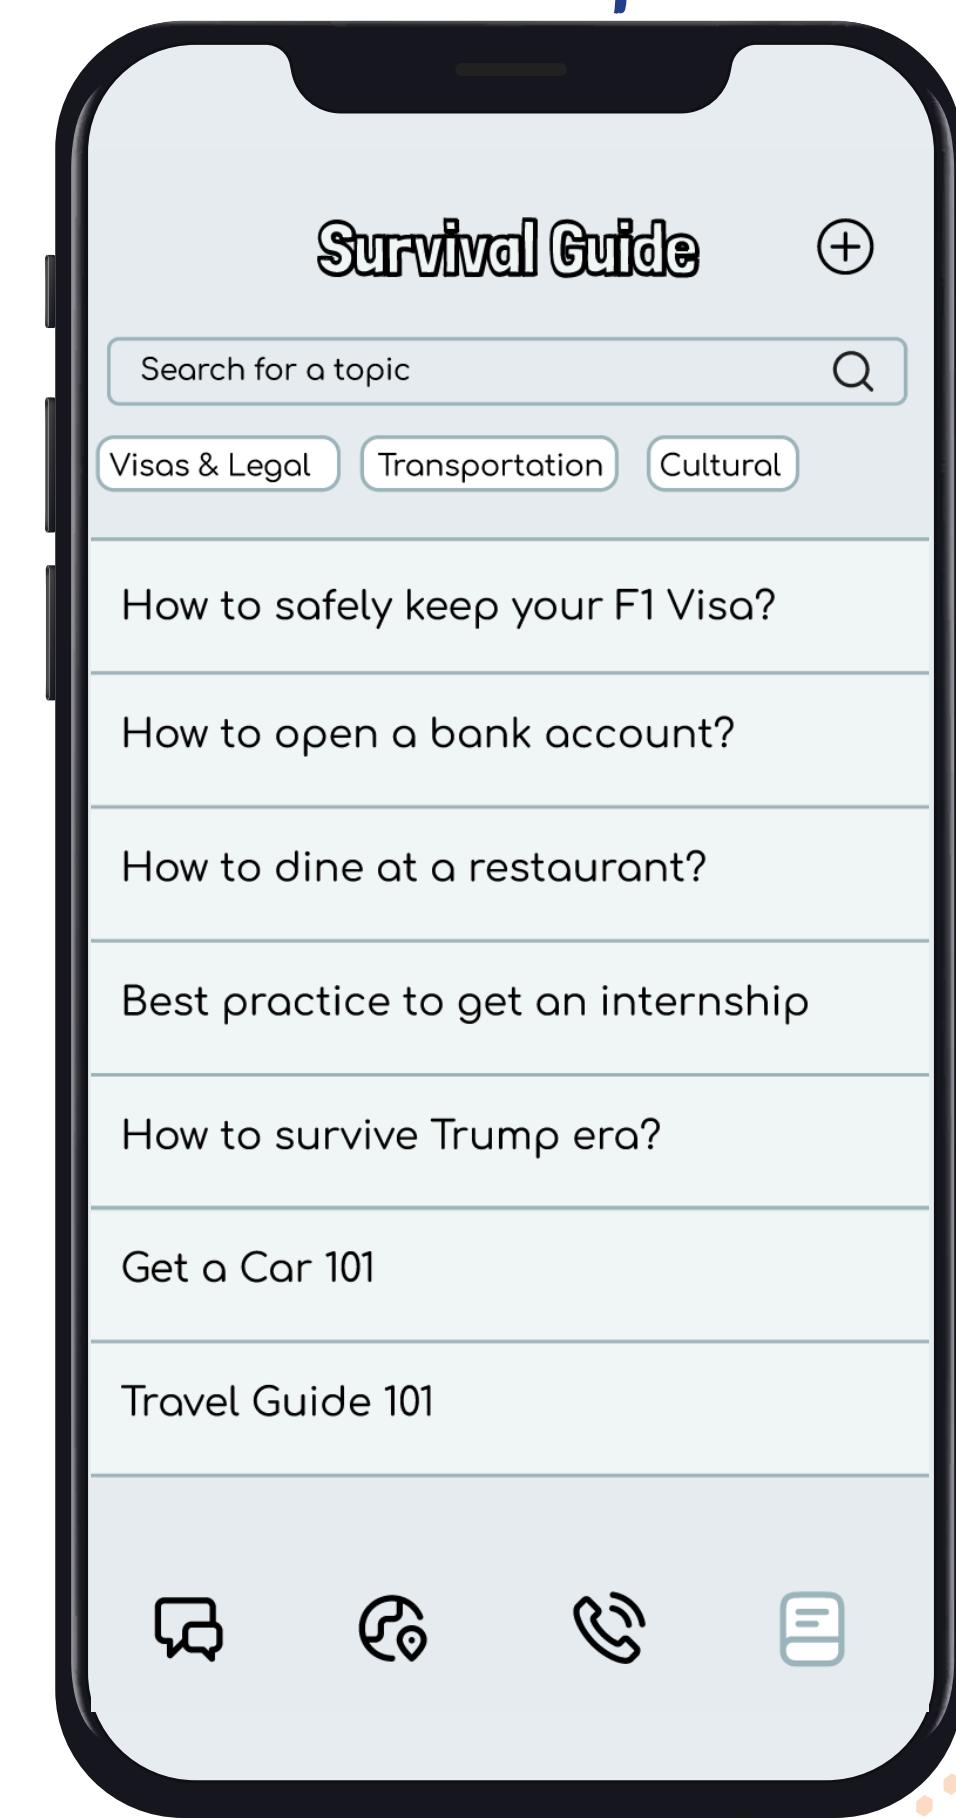

Ask & Answer
shared questions for
Intl' students

Look up Intl'-Hows
on burning issues
for intl' students.

Chat Rooms

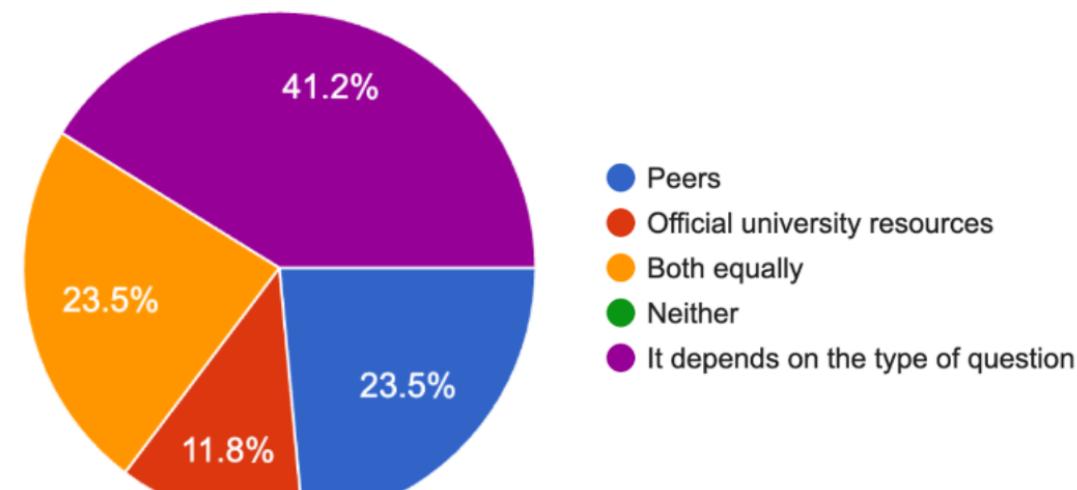

Survival Guide

Scan for
early access
of our app!!

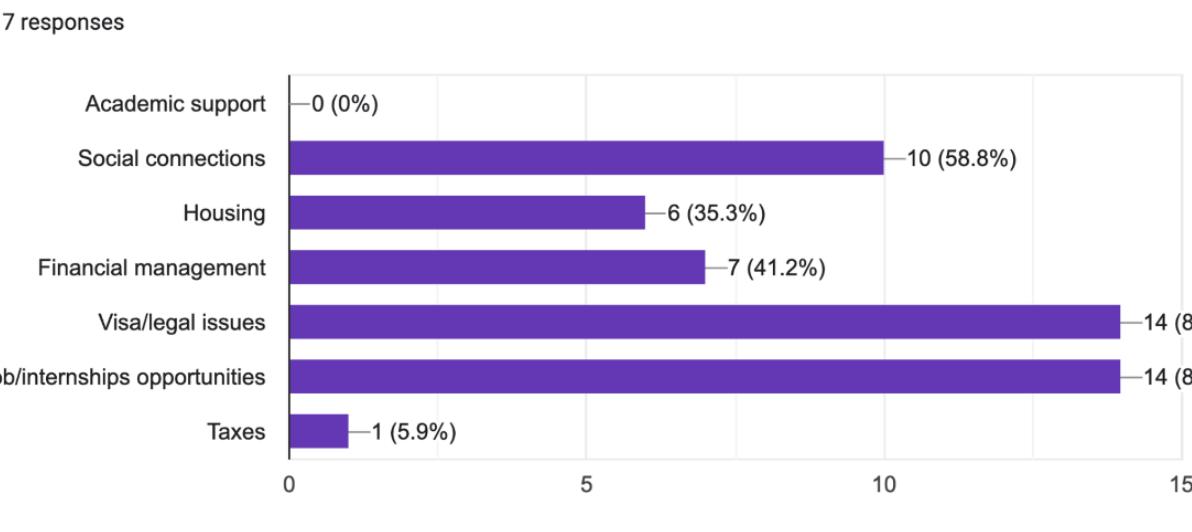

Research

Do you find it easier to connect with peers or official university resources when you have questions?

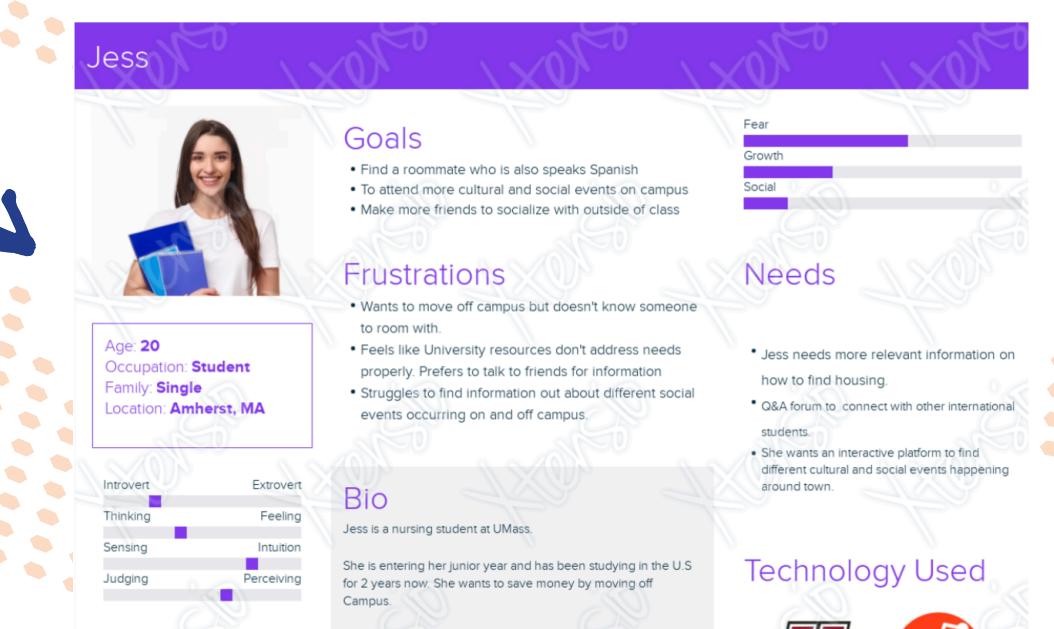

What is the most challenging aspect of being an international student? (Check all that apply)

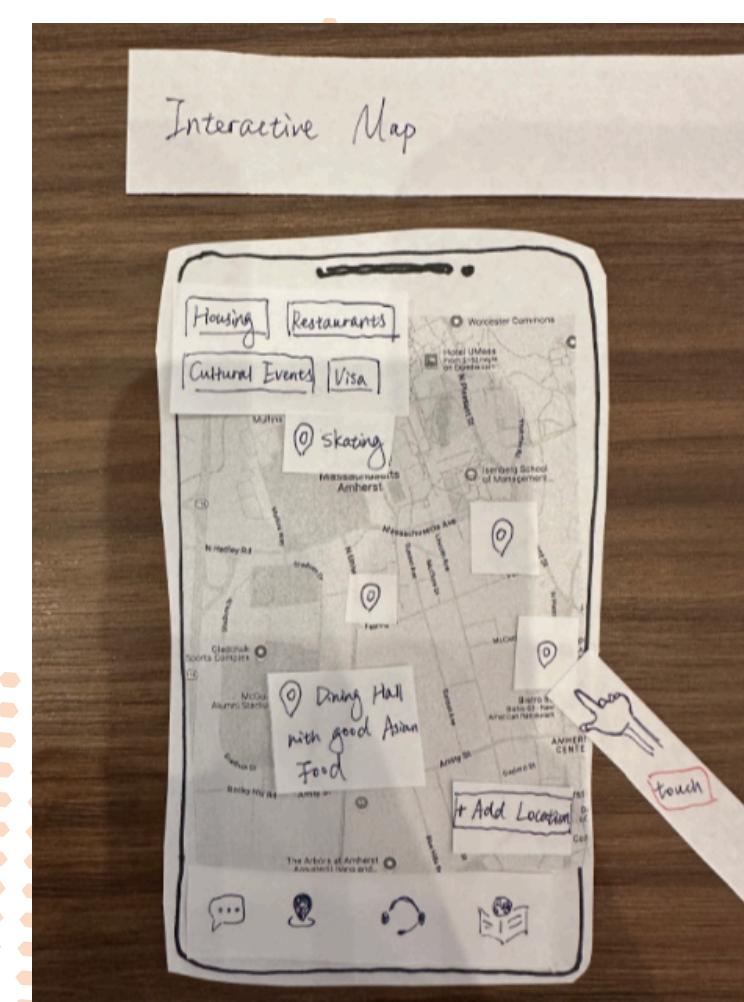

Surveyed 17 International students

Persona & Scenarios

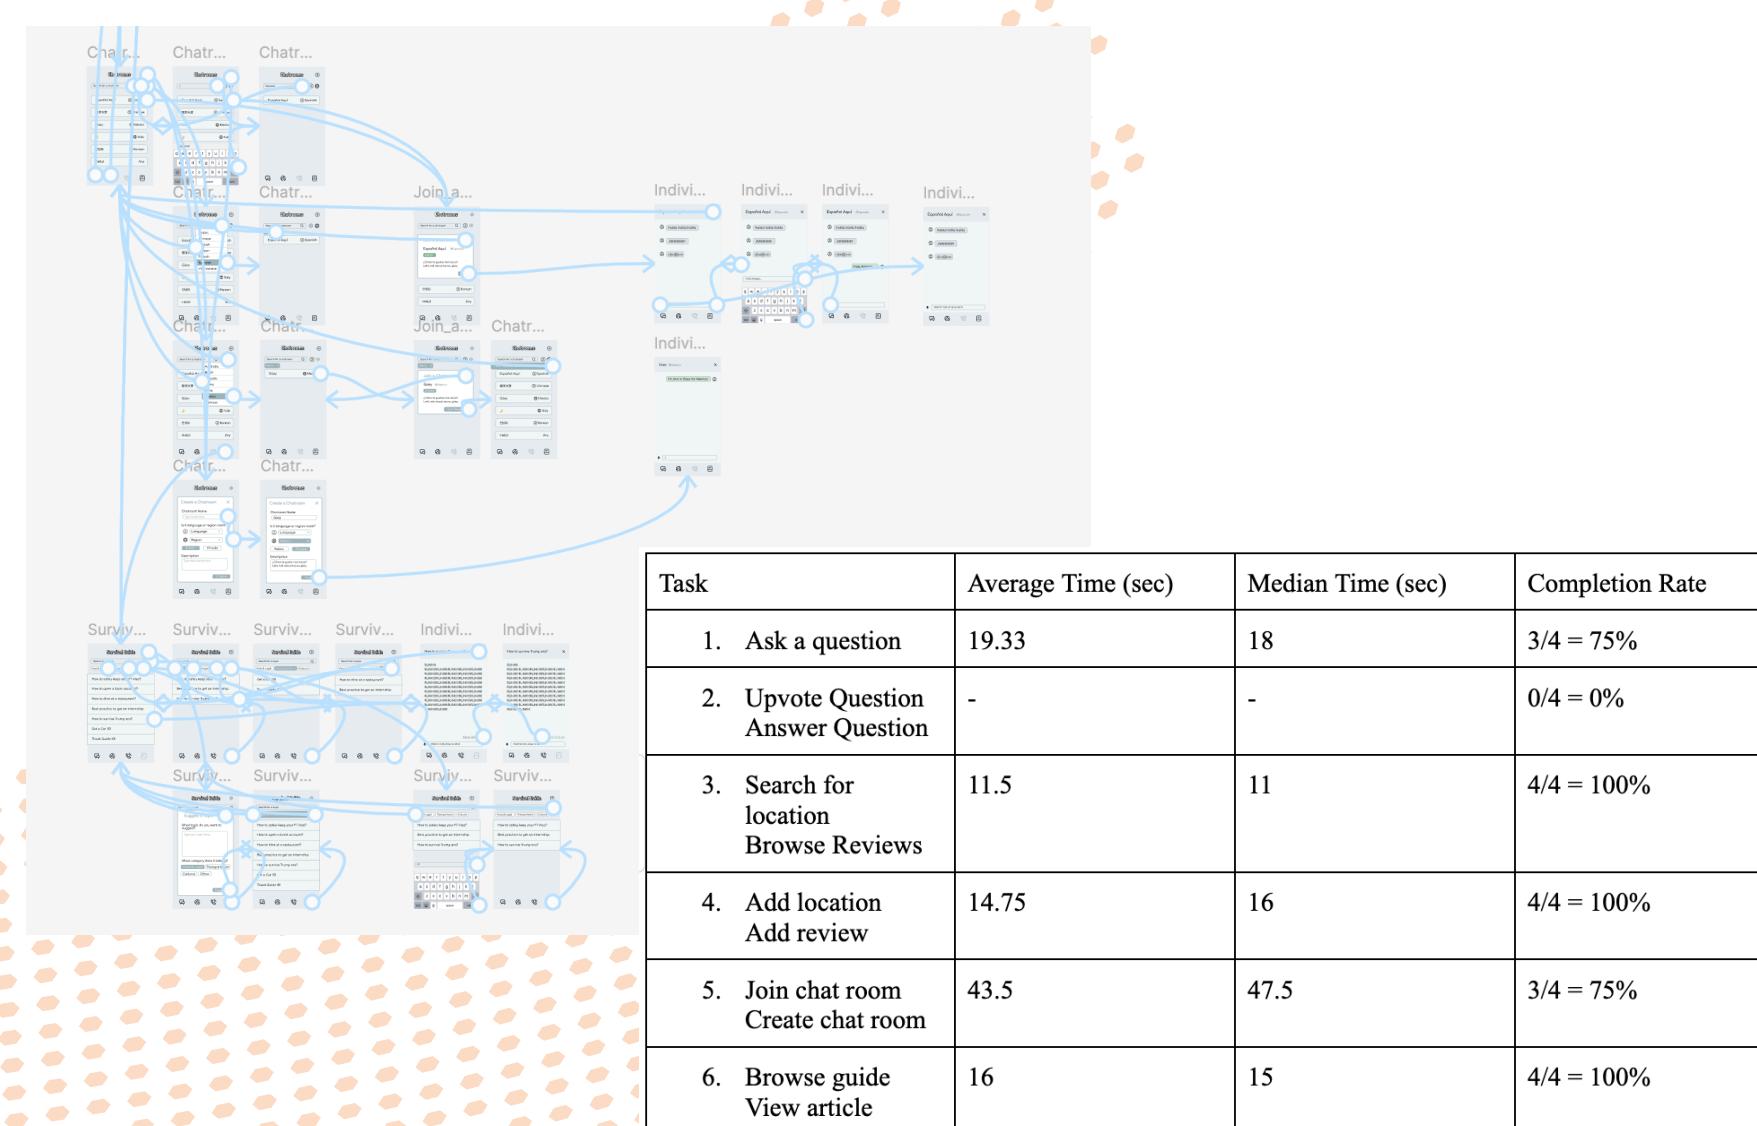

Developed Persona & Scenarios
to guide design

Paper Prototype
